

SOTI MobiControl and Intermec

MobiControl V8

Manage, Support, Secure & Track your Devices Anytime, Anywhere

"The remarkable part of the installation process was that we were able to install MobiControl on over 2,844 mobile devices in a 24-hour period."

Amanda Kahler
Manager, Handheld Support
MasTec, USA

"Our work with SOTI and their Device Management solution, MobiControl, has added significant value to our mobile fleet allow-ing us to improve ROI while decreasing cost."

Peter Brown
Server Infrastructure Technician
Sanctuary Housing, U.K.

Take Control of Your Mobile Field-Force

SOTI MobiControl is the mobile device management solution of choice for centralized control, robust security, instantaneous support and enhanced tracking over any network for any size of deployment.

MobiControl V8 – The Right Choice Web Console

Access MobiControl anywhere with the new web-based Management Console, no software installation required

Rapid Provisioning

Provision devices in seconds by scanning a barcode. Powered by MobiScan.

Award-Winning Extensible Architecture

Scalable from ten to tens-of-thousands of devices

Maximize Your ROI

MobiControl translates a support cost savings in excess of \$200 per user/year – VDC Research Group

Features

Winner of 2010 Microsoft Worldwide Mobility Solution of the Year

Device Provisioning

Automatically deploy software and data in real-time over any network connection; **New!** Provision devices in seconds by scanning a MobiScan barcode.

Helpdesk Tools

New! Web Console: full remote control over any network; manage/view file systems & registry of any device.

Advanced Security

Standalone or AD Authentication, File Encryption, Malware Protection, Perimeter Security, Industrial Browser, Phone Blacklist/Whitelist, and much more!

Data Sync

Perform scheduled or ad-hoc file/data synchronization.

Location Services

Locate and track mobile assets, including geofencing, breadcrumbing speed and real time location.

Alerts & Reporting

Set up alert notifications via email or SMS. Use standard or custom reports to monitor your mobile operations.

Diagnostics

Automatically identify problem areas with advanced Diagnostic and Imaging Tools.

Asset Management

Track hardware and software assets; automatically group devices based on location, etc.

CRM

Track hardware and software assets; automatically group devices based on location, etc. Track device repair history to identify problems and defective units.

Maximize your Mobile Field-Force

Reduce Total Cost of Ownership

Automate processes to increase productivity, reduce labor costs and maximize your ROI.

Increase Productivity

Minimize downtime, shorten training curves, increase user adoption, reduce support and labor costs and simplify device management.

Reduce Security Risk

AES-256 full device storage encryption using FIPS 140-2 certified algorithms to protect your sensitive data, Active Directory based user authentication,

Application Run Control, Device Lockdown (Kiosk mode), Hardware Feature Control and much more. Advanced security policies provide administrators with granular control over how mobile devices are used and data is accessed as well as help achieve PCI, SOX and HIPAA compliance.

Benefit from Open Standards

Built using open industry standards with no need for proprietary hardware or software.

Protect Your Investment

MobiControl supports all Windows-based mobile and desktop computing devices that operate over any wired or wireless network (e.g. WiFi, GPRS, CDMA, EDGE, UMTS, LTE)

System Requirements

Manage any mobile device or computer running any Microsoft mobile or desktop Operating System. Compatible with all devices/computers running Microsoft CE, Pocket PC, Windows Mobile, Smartphone, Windows XP, Windows 2000, Windows Vista, and Windows 7 (32-bit or 64-bit) Operating Systems. Now supporting Windows Embedded for Handhelds.

Manage Mobile Deployments Over Any Network Topology

- WiFi or other wireless network
- Low & High bandwidth Cellular Network
 - GPRS, CDMA, EDGE, UMTS, LTE, WiMAX, etc.
- External network outside corporate firewall
- Batch mode/cradle devices
